MEMORANDUM FOR: Deputy Director for Administration

FROM : Harry E. Fitzwater  
Director of Training

SUBJECT : Costs of Defensive Driving Segment of the  
Countering Terrorist Tactics Course

1. A recommendation for your approval is contained in Paragraph 4.

2. During the last three years, the costs associated with the defensive driving segment of the Countering Terrorist Tactics Course have risen significantly. In FY 73 the average cost per student was \$93.64, whereas at the present time the average cost is \$170 per student. These costs cover only the daytime part of this segment. We have recently added a nighttime exercise to the program; the average cost of a student attending both the daytime and nighttime exercises is \$268. More than 85 percent of the cost of this course involves pickup, preparation and repair of the vehicles, despite the fact that we have not been charged for the vehicles themselves up to now. We are also being forced to go farther from ☐ to find suitable vehicles. A breakdown of the figures is attached.

3. Concomitant with these increased costs, there has been an increased emphasis throughout the Intelligence Community on how to counter the terrorist problem. Forty-four non-Agency officers from State, DoD, and the Secret Service attended the defensive driving exercise during CY 1975. We currently expect over 60 non-Agency students to attend the course during CY 1976. These students will attend only the daytime session, but this will push our annual cost of training these non-Agency personnel to over \$10,000.

4. To offset these increased costs, we propose to institute a tuition charge on those agencies and departments which send personnel to the defensive driving portion of
